CARSLAND NOTES

One of the Ford Bros. of Blind Creek had the intention to pass a horse one day last week, and was lucky not to lose another, as well as his own life. The accident happened while riding south over the railway crossing with a load, and ran foul of a light freight train going east. Mr. Ford did not see or hear the train till it hit the horse square on the head. The other horse was pulled under the wheel but escaped without any serious harm. Mr. Ford was not touched at all.

The D.H. Club met at the home of Mrs. G. Copley Thursday afternoon, the 9th. There was a fair attendance, and the meeting was attended by a social nature. Mrs. Haykney acted as hostess, Mrs. Copley in serving lunch.

On Friday evening, the 6th, Mr. and Mrs. Melchior entertained a number of the young ladies in a dancing party on the slushy bank of their place. After starting the party adjourned to the home where a number of various kinds were indulged in till midnight. The evening was brought to a close with a potpourri of songs by Mrs. Melchior and Mrs. R. Bishop. Wendie Phillips moved a vote of thanks to the business for the ladies in providing for the evening's enjoyment.

Mrs. Hall told of a number of friends to dinner on Sunday last.

The annual meeting of the Carlsland Consolidated School is called for on Saturday afternoon, the 14th, in the School House. A car load of cattle and hogs was shipped out of Carlsland last week all good stuff.

The annual meeting of the Carlsland Board of Trade was held on Thursday evening, the 6th, when there was a good attendance.

The officers for the present year are: Pres. Mr. H. Pakenham; Vice-Pres. Mr. A. W. Cronin; Sec. Mr. H. H. Drake. It was decided to send a pump engine to Calgary for repairs, and if necessary to exchange for a new one.

Death of T. C. Heine

The death occurred last week of Mr. T. C. Heine.

The deceased came to this district about eighteen months ago, purchasing a farm two miles south of town, owned by Mr. R. D. Jones. Mr. Heine, during his stay in this district, made many friends, and the news of his death was received with much regret. Suitable funeral services were held at Saturday's U.F.A. meeting. Mr. Heine having been a member of Strathmore Local, U.F.A.

Snooker Tournament

Something of a novelty was brought off at the High Ballroom on Friday evening in the shape of a snooker tournament between Rockyford and Strathmore teams. Strathmore won by 129 points, but the visitors have to reverse the proceedings when Strathmore plays the return at Rockyford.

Subscribers are the teams and scores: Rockyford: Baker 129, Paulsen 105, Palmer 106, Edwards 176.

Strathmore: White 215, Crawford 185, H. Jenkins 200, H. Baker 218, Tuttle, Strathmore 315, Rockford 676.

ARDENODE NOTES

A half-stone social will be held at the society's annual home on Friday, January 13. A good program of songs, dances, recitations and dancing, in which local talent will use their best efforts to give an enjoyable evening.

Facts Regarding The Grain Business

By CHARLES BIRKETT (Special to the Standard)

ARTICLE VII GRAIN EXCHANGE

Quite a large number of producers do not thoroughly understand Grain Exchanges and their methods. A grain exchange is nothing more or less than a large marketing place where the seller and buyer meet to sell.

There is a difference in the way the grain is sold in the country town where the farmer brings in his produce for sale, and the town where the farmer brings in his produce for sale, and the town where the farmer brings in his produce for sale.

Grain exchanges are not just places where farmers come to sell their grain. They are places where the farmer brings in his produce for sale, and the town where the farmer brings in his produce for sale.

There is one feature, however, of Grain Exchange operation which seems to bother a lot of producers more than any other. It is the question of future trading.

The holding of grain is simple to understand, and is quite a legitimate function. While holding has been described as speculation, it is just the reverse. A grain that holds its grain to avoid speculation. We will say Mr. Jones has one hundred elevators.

He does not know when he will be able to market it because he does not regulate transportation facilities. If, therefore, you sell the pit and sell one hundred bushels and trucks for some more days delivery at a later date. He knows what he paid for the grain. He knows what he sold it for. He knows his loss or profit. If the market goes up before he can deliver the grain he will make money on his grain.

The final result is the same. If the grain goes down he will have the reverse position. In other words Mr. Jones has insured himself against any possible fluctuation in price pending delivery of the grain to the normal elevators.

You might ask who has the grain for the future delivery. It might be the miller who wants wheat for the manufacture of flour, or it might be the exporter who has made a sale of overseas.

Strathmore U.F.A. Holds Meeting

The Strathmore U.F.A. started the new year with a very enthusiastic meeting on Saturday last in the King Edward Hotel.

The members present to attend the First and West Calgary Conventions Association Convention were Messrs H. Givens, D. F. Bolevann, W. H. Givens, and H. W. Walcott.

A considerable amount of discussion on the time of the members presented in a motion that they be left at \$200 per year, carried.

For some time now there has been a difference of opinion regarding the branch of the U.F.A. being formed, but the men have now come to the conclusion that to make this Local a real success they must have the help of the fair sex.

It has been decided on an early date the United Farm Women's Association will make it possible for a representative to address a gathering in this town.

During the remainder of the winter it is arranged to hold social gatherings at the school houses in the different districts, and the following members are selected to arrange same: George Valley—A. J. Weaver, V. S. K. Kovak.

Ardenode—L. E. Green and J. H. Wood. Strathmore—W. H. Givens and W. G. Way.

The social work of the U.F.A. has done a great deal to make the organization what it is today, and with the assistance of the committees in the various districts it is hoped that the whole community can be brought together, to be able to understand and better, to put our business on a better footing and to solve the economic situation which is at present time leading to nothing.

Among those attending the meeting on Saturday was an old timer of Strathmore, Mr. Devereaux, now residing at Victoria.

Mr. Devereaux being president of the Local U.F.A. in that town, was called upon for an address in which he expounded in a most able manner, and it is most interesting to know that an old Strathmore member holds such a position as president of the U.F.A. in such a thriving district.

In the past, members of the U.F.A. have sometimes had difficulty in shipping hogs, at the most convenient time, and a movement is now under way to ship hogs through the Local U.F.A. Anyone having hogs to ship in the near future would do well to attend the meetings of the Local U.F.A. next meeting will be on January 21st, when this matter will be discussed further.

Turner News Items

Mrs. R. Allan has been visiting at Keoma.

Miss Martha Stoen, of Nanton, has been visiting at the Keer house.

Members of the Turner Social Club danced the old year out and the new year in on Saturday evening. After midnight the time was spent in music and recitations. Vocal selections were rendered by Mrs. Stoen and Miss Stoen, and several vocal solos were given by Wm. Heron.

A meeting of the U.F.A. was held in the school Friday. An officer is being made to secure new members.

First Meeting of Town Council

The first meeting of Strathmore Town Council for the year 1922 was held in the Town Hall on Tuesday evening last.

The two new members of the Council, Messrs S. H. Hyde and R. Bailey, were sworn in.

Councillor H. J. Anderson was appointed Deputy Mayor for the first six months of 1922.

The standing committees were appointed as follows: Finance, License and Police, Legislative, H. W. B. Bell, (chairman) H. Tompkins, R. Bailey; Public Works, Fire and Light, Property and Building, J. A. French (chairman) H. J. Anderson, S. H. Hyde.

Councillor French was appointed to look into the provision of electric light for the silent policeman.

Health Standing

A committee from the Hospital Board, consisting of Messrs H. P. McDonald, R. S. Strickland, and Roy T. Philp, presented a statement showing the work of the hospital during the past year, and asked for assistance during the coming year. It was decided to co-operate with the Rural Municipality adjoining Strathmore in determining the form of assistance to be given to the hospital.

The Slogan

The town has not yet secured a slogan for their space on the Memorial Hall emblem, and this was left with a committee to receive suggestions.

A number of other items of business were disposed of.

Keoma Farmer Found Frozen Under His Car

The news of the death of Victor Torsell, a Keoma farmer, under very sad circumstances, reached quite a shock throughout that district.

The dead body of Mr. Torsell was found pinned beneath his overturned Ford automobile on the highway ten miles east of Calgary at noon on Wednesday. The body was frozen stiff when found. Tracks on the road made the authorities to believe that Torsell's car skidded on the ice road, collided with the embankment on the side of the road and overturned before he could gain control of it.

Owing to condition of the body, the exact cause of death has not been ascertained, but it is thought that the man froze to death following rain or fog to extricate himself when the car overturned and pinned him to the ground.

The accident was reported by Jack Ludman, a farmer who lives in the vicinity near where the accident occurred. Mr. Ludman saw the overturned car on the road on Wednesday morning, but thinking that it was abandoned lay upon until he noticed it. Some time later, however, he decided to investigate, and on reaching the spot found the dead body.

He immediately summoned several neighbors. The provincial police at Calgary were notified, and Constable Hansen, accompanied by Dr. T. A. Wright, arrived for the scene at 1 p.m.

When the officials arrived, the body was still under the car. The car was lifted off, and found to be in good running order with the exception of the front axle, which was bent. The body was brought to Calgary by the Graham, McCall & Brown ambulance.

Torsell, who is a well known farmer of the Keoma district, was in Calgary on Tuesday, visiting his father-in-law, Newton Thompson, 223 Fifth Avenue street northwest, Hillhurst, and was driving back to Keoma in his Ford car when the accident occurred.

He left the city shortly after seven o'clock, and it is the belief of the authorities that the accident occurred about 8 o'clock on Tuesday evening.

The speed at which Canadian products can be put on the market in England was strikingly demonstrated recently.

The Department of Colonization and Development of the Canadian Pacific Railway recently shipped by Dominion Express on the "Empress of Britain" a consignment of Canadian apples for exhibition at £2-45, Charing Cross, and the other offices of the company in Europe. The apples came from various Canadian provinces, and it is interesting to note that some of them actually left the producer and were on show in less than eight days. For instance, the Ontario consignment left Trenton, Ontario, at 2 a.m., November 1, by C.P.R., arrived Montreal at 8 a.m., left at 9 a.m., and arrived Quebec at 2 p.m. They were immediately placed on board the Canadian Pacific liner "Empress of Britain," which arrived Liverpool on Tuesday morning, Nov. 8. Before the last passenger was off the ship the apples were discharged, whisked in Dominion Express motors to the special train to Euston Station, London, which was reached soon after 2 p.m. the same day. Here Dominion Express vans collected them, and at 3 o'clock they were on exhibition in the windows of the Canadian Pacific at Charing Cross, with a card reading, "Canadian apples, from producer to consumer in less than eight days."

Though Canada is three thousand miles from England, our system of quick transportation is so fast that to that country every day. Recently the "Empress of Britain" went to Liverpool and back to Quebec in 15 days, including the time taken in embarking and disembarking passengers.

Heals Inflamed Nostrils Stops Catarrhal Discharge Relieves Colds Quickly

You'll be pleasantly surprised at the quick action Catarrhine has upon catarrhal conditions in the nose or throat. It is so simple to use, so agreeable to use, so safe and reliable that thousands of people feel like using it every day. No other medicine to take—just put Catarrhine in the nostrils, and you will feel the balsamic vapor of the healing agent in the lungs, into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhine will reach it. You can keep free from coughs, colds, bronchitis and the like by using Catarrhine. Two months' treatment, one dollar, small size box. Dealers everywhere, or the Catarrhine Co., Montreal.

Red Army Getting Ready

Soviets Will Prepare For War in the Spring

The Soviet army and navy, now totalling 1,500,000 men, must not be reduced, but on the contrary must increase training and be prepared for war next spring and summer in the event that outside forces carry out their plans to attack Soviet Russia, declared Soviet Minister of War Trotsky in a fiery speech before the ninth all-Russian congress.

Enthusiastic applause greeted Trotsky when he said the Japanese were adding the white guard aggression in the Far East, and added:

"The impatient imperialist beasts of prey must know that besides the red powers which have just concluded an agreement amongst themselves there is still a fifth—Soviet Russia and the Red Army."

Trotsky announced to the congress the capture of Khabarovsk in Siberia, by the White guards in the presence of Japanese bayonets.

"How can we remove our troops from the Far East?" he demanded breathlessly. "No, we can only regret there were not enough of them. But we are certain that in the future enough Red bayonets will be there to hold back the pressure."

Canadian Cattle Still Going To States

Parley Tariff Has Not Greatly Affected Shipments

Heavy shipments of cattle to the United States from Alberta and other Canadian points are still being made notwithstanding the Parley Tariff. Since the tariff came into force last May, 8,500 head of cattle have been sent to American points from the Calgary and Edmonton stock markets. In addition to these, 23,000 head have crossed the line from the Winnipeg market.

Same Applies Here

Christmas is past, and with it the delivery of Christmas happens to the poor. Christmas comes but once a year, but the poor are here all year with us, and the duty of caring for them is a 365-day obligation—transferred Expatriate.

Strength

Strength of muscle does not indicate strength of nerves. On this account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Nerves and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes: "I had been troubled for some time with indigestion. At times there would be a twisting of the nerves of my stomach; and I also found it difficult to get a good night's sleep. I was weak, and owing to the nature of my work my system became run down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did not give me a great deal of good, I have not been bothered at all with indigestion since, and can sleep much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it splendid for anyone who is weak and nervous." Dr. Chase's Nerve Food, 50c a box, all dealers, or the Edmonton, Bate & Co., Limited, Toronto.

Viscount Lascelles Beloved by Men

Was Typical Guards Officer and Always Most Considerate

Numerous stories of the life and personality during the war of Viscount Lascelles, former of Her Royal Highness, Princess Mary, when the betrothal was announced, were told at the funeral of the late Viscount on the Rhine who had served under the recipient of two D.S.O. awards in the famous Grenadier Guards. Soon after the arrival of Viscount Lascelles, who were three months' stripes, led the second battalion of the Guards into Cologne as part of the army of occupation of the Rhineland.

A Grenadier, who served bravely as the distinguished officer's "batman," or orderly, said that he was a typical Guards officer and a real man in every sense of the word—a strict disciplinarian to whom polish and shine and cleanliness was a second religion.

"Often Lord Viscount would give us his blankets on a cold night so that a private in his company would not suffer," said the "batman." "He was always most considerate of his men and in many cases where most officers would have ordered out of the line in the guard house, he would let his soldiers off, for some trifling offence, with only a slight reprimand and the request to me, 'move on' next time."

Viscount Lascelles was very fond of sharing his pipe and home with his men. Surprise gifts of cigarettes, chocolate, roses and shirts and other articles were often distributed rather mysteriously in the rest billets, and although everyone knew where they came from our commander never admitted that he was the fairy godfather of our battalion."

If Britain Should Withdraw

India Would Be Conquered By Some Foreign Power

What would happen to the future of an India divorced from the British, if a first internecine war aggravated by Pathan invasions, and then an other conquest of India by one of the greater foreign powers. Such powers would find an excuse in the murder of the nationals which would certainly take place if India went into anarchy. The country would be in the course of time become part of some aggregation, for it cannot stand alone. No country, indeed, can. However, one need not dwell on these possibilities, they are only indicated in order to show how very short-sighted and ignorant the Separatists are.—The Englishman, Calcutta.

Find Relics of Explorer

Missing Men's Letter Says Bears Destroyed Depots

"Bears destroyed our depot; we now have twenty days' provisions," so reads parts of a letter dated November 10, 1919, said the official Russian State Agency, to have been found at Cape Wild by the Russian expedition under Berchick, which had been making a search in the Arctic region to learn just what happened to Kudren and Tashan, two members of the Amundsen North polar expedition, who were last during the explorations in the winter of 1915.

Near Cape Premety, the expedition reports that it discovered the remains of a fire on a beach.

Plan Big German Canal

Will Be Largest Ever Undertaken in Europe

Plans for the construction of a canal connecting the Rhine, Main and Danube, the biggest waterway project ever undertaken in Europe, are in preparation and a corporation with an initial capital of one billion, two hundred million marks has been organized to finance the work which will require twenty years for its completion.

Strange, But True

Talk about carrying coals to Newcastle, importing pepper into Newfoundland, sending fir trees to Norway, or pouring water into the sea! According to secretary of Commerce Hoover British coal is being delivered at our Atlantic ports at a price to compete with the product of American mines a few miles distant—Providence Journal.

British Immigrants Predominate

During the month of October a total of 6,175 immigrants entered Canada, of which 3,175 were from the British Isles, 2,125 from the United States and 1,875 from other countries. The total immigration for the first six months of 1927 is 72,015, the newcomers by origin being British 34,527, United States 21,535, and other countries 15,946.

In Cuba the children take the names of both parents, but place the mother's name after the father's.

Give your local merchants a chance. Buy at home.

Geology Of Manitoba

Fertility of Farms Due To Three Large Lakes

The Department of Mines has published a Geological Survey memoir of deep interest to students of the geology of Manitoba. Much of the fertility of our farms is due to the fortuitous circumstances that when the glacial ice-sheet retreated 2 years ago, it gave rise to the unusual geological conditions now seen in Manitoba and Winnipeg, and the surrounding area.

Lake Agassiz must have been an imposing sheet of ice-cold water, though there were certainly no human eyes to gaze upon its frightful surface. Its old beaches are found along the Riding, Duck and Pemmican mountains, and may be noticed along the Canadian National right of way between Redford and South Junction—as well as at certain other provincial points.

The proofs of the existence of the ancient glacial water were first given by Hinds, Dawson and Tyrrell, but the most recent work is that of the author of this memoir, Mr. W. A. Johnston. This publication will be found indispensable by anyone requiring up-to-date data on the glacial and post glacial topography of Manitoba.

Our richest soil is precisely those that were once the sediments of the deposits by the great lake, are the barrier which hemmed it in to the northward gave way and permitted the impounded water to escape to Hudson's Bay. Instead of merely spilling their excess southward into the Mississippi. A perusal of the handbook will yield a clear understanding of one of the most interesting pages of geological history.—C. A. B.

Triumph Of Horticulture

New White Carnation Said to be Disease-Resisting

Crossing the American carnation known as "Mrs. T. W. Lawson" with English plants has produced, after years of selective breeding a dazzling white variety, the first of a new race of disease-resisting flowers, which is described as a triumph of horticulture.

Its breeder, Stuart Low, who is showing his novelty, named White Pearl, at the Royal Horticultural Hall, London, has succeeded in raising the old carnation marines which in many modern varieties has almost vanished. It is stated that the new pollaria carnation has passed through all disease tests and has come out unscathed.

Labors End Booby Trap

Workers in France Discover Explosive Bombs in Bell

A party of 50 picked and shovelled narrowly escaped death from a booby trap intended for Tommy in 1915 at Albert.

The men were removing the debris round the celebrated battle, now a mass of ruins. The shell, which many a reader remembers, was suddenly to be removed, when suddenly a workman shouted "Run for your lives!"

No explanation was needed. The men ran. A packet of papers went to the bell and with indelicacy was removed a Rickford cord 15 feet long, 25 sticks of dynamite and 12 heavy explosive bombs.

Expect Record Fur Season

The Pae Anticipates Two and a Half Million Dollar Catch

Two million and a half dollars is the latest estimate of the value of the fur which will pass through The Pae this season. This will establish a record if it proves to be the case, beating the winter of 1923-24, when a million dollars' worth of fur was produced in Northern Manitoba, and the previous year the value of the catch was something like \$1,000,000. The train which arrived recently from Mile 214 on the Hudson Bay Railway had 40,000 worth of fur on board. Ever since the fur season started this train has brought down an average of \$40,000 worth of fur a trip.

A Firm Joke

I wonder how many cabinet ministers know that, right across America the official film showing the surrender of the German fleet to the British fleet was labelled, "The German fleet surrenders to the American fleet."—London Graphic.

No Limit

Morish Fogg was the recipient of thirty degrees honors causa when he visited the United States and Canada. If he had stayed a little longer he might have had the lot—Montreal Gazette.

Iowa leads the United States with 182,852 farms supplied with telephones.

DEECHAM'S PILLS Sweeten the Stomach

Puzzle Of Wireless

Experts Unable to Define Source of Mysterious Messages

Despite the most diligent research, experts cannot yet solve the puzzle of the mysterious "vague" signals that every day, and particularly at night, are received on wireless aerials. From the earliest days of long distance wireless telegraphy, the difficulties in reception due to variant or natural electric waves and atmospheric electric discharges passing down the receiving aerial have been the bane of the wireless telegraphist. Professor John Austin Fleming, of London University, told the Royal Society of Arts, he said:

"Having regard to the fact that the positive atmospheric electric potential gradient of the solar increase is of the order of about 100 volts per meter of ascent, roughly speaking, it is not surprising that aerials several hundred feet high may be traversed by quite large currents due to the course alone which may utterly swamp the feeble signal currents."

He was also pointing out the effect of the thermionic valve-receiver, which revolutionized wireless telegraphy and telephony.

Taking Edge Off Work

Humdrum Labor is Made Lighter by Compaiship

It is the human association, the companionship, that makes either work or play wholesome and satisfying. You can't imagine even the most continued golf field getting any pleasure out of going over the course all by his lonesome, even though he had the same exercise, the same fresh air and the same chance to show his skill as he would have if playing with a friend. Poles at a neighborhood pool or clubhouse will work a heap harder than they would getting up a head at home, but one would be lightened by the spirit of fun and golf fellowship, the other more humdrum labor. There's all the difference in the world between the two.—Brooklyn Enterprise.

Alberta Government Orders Survey

Work Has Commenced on Investigation into Industrial Situation

An industrial survey of the province has been ordered by the Alberta government. Work has already commenced on the collection of information and statistics necessary for the purpose. The idea will be to make a thorough investigation of the industrial situation in Alberta, taking into account the number and kind of industries, whether or not they are working on full time, and if not why.

Canada to Have Nickel Coin

Minting of New Style of Five Cent Piece to Start at Once

Canada is to have a five-cent nickel coin. Minting is to begin at once. In issuance, the same procedure will be followed as was adopted in respect to the small one-cent piece.

Of pure nickel the new five-cent coin will have a diameter of .515 of an inch and be of several grains in weight. On one side it will bear the impression of His Majesty's coronation, consisting of a head and bust wearing the royal robes and looking to the left, with the inscription: "Georgius V. del. rex. ind. imp." On the other side it will bear the impression in the center, the figure 5 with word "Five" on the left and the word "Canada" on the right; and bearing the word "Canada" above and two maple leaves over the date of issue below.

The Canadian nickel will approximate the size of the American nickel.

Germany is consuming much less of certain articles than before the war; the annual consumption of sugar per head has decreased nearly 9 pounds, and coffee and tea over 4 pounds.

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

Doesn't hurt a bit! Drop a little "Danderine" on an itching cure, instantly that cure stops having the hair drop; you lift it right off with fingers.

Your druggist sells a tiny bottle of "Danderine" for a few cents, sufficient to remove every hard corn, out corn, or corn between the toes and the calluses, without excruciating irritation.

Genuine

Aspirin

WARNING! Say "Bayer" when you buy Aspirin.

Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds, Headache, Rheumatism, Toothache, Neuralgia, Neuritis, Earache, Lumbago, Pain, Pain.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Havana Prohibits Prize Fighting

Mayor Characterizes the Sport as Brutal and Dangerous

Prize fighting in Havana is prohibited under a decree issued by Mayor Brodies. The decree characterizes prize fighting as brutal and dangerous, and points out that the law which provides for fines and imprisonment for those exchanging blows on the street, "cannot sanction such proceedings, even when the participants are included in a rapid encounter and batter each other under slight restrictions for the amusement of a crowd."

Three Centuries of Cotton Culture

The culture of cotton in the United States dates back just 300 years, the first cotton being planted in Virginia as an experiment in 1621.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Danderine" on an itching cure, instantly that cure stops having the hair drop; you lift it right off with fingers.

Your druggist sells a tiny bottle of "Danderine" for a few cents, sufficient to remove every hard corn, out corn, or corn between the toes and the calluses, without excruciating irritation.

Genuine

Aspirin

WARNING! Say "Bayer" when you buy Aspirin.

Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds, Headache, Rheumatism, Toothache, Neuralgia, Neuritis, Earache, Lumbago, Pain, Pain.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Sloan's Liniment is pain's enemy. Ask your dealer.

At all drugists—35c, 70c, \$1.40.

Sloan's Liniment (Pain's Enemy)

World Happenings Briefly Told

The wedding of Princess Mary to Viscount Lascelles has been set for February 24, according to the London Daily Mail.

A bottle containing date that had been drifting six years since cast overboard in Japan, was found near Portland, Ore.

A Birmingham, Ala., real estate company gives to every purchaser of a lot 20,000 feet of lumber with which to start a home.

Building permits in Moose Jaw for 1921 were \$500,177, as against \$1,523,665. The 1920 permits included one million for the C.P.R. station and office building.

An automobile that had upon its hood the figure of a diving girl, fell to the street in Hull, Quebec, at the General and George Baker in connection with the death of Joseph P. Quercio, of Montreal.

Unless too tender amateur radio operators apply for Dominion license, the Windsor, Ont., patrol of the Canadian Mounted Police has received orders to dismantle all their wireless equipment.

A Belgian passenger on the steamer Zealand, who had been deported from New York, jumped overboard at sea and was drowned, the steamer's officers reported on her arrival at Pittsburgh, Pa.

A bomb was exploded among the crowd listening to a band in the market place of Bucharest, Rumania, on New Year's Eve, injuring 20 persons, 20 of them seriously. The thrower of the bomb, a youth, and several other persons, were arrested.

The wedding of Charles Phillips, London, had progressed to the point where the register should be the bridegroom's full name. Then it was learned Phillips had delegated his brother to take his place while he went to France on important business. The wedding was postponed.

The New Year's toll of casualties from poisonous drugs amounted to four dead and six dangerously ill in New York hospitals, with uncounted scores of cases of acute alcoholism and accidents attributed to inebriated liquor. One case of absolute paralysis was reported.

The American government has permitted the fact to be known that the Vickers Armstrong Company, a British concern, has made an offer to purchase the great Westland Aircraft, which it is proposed to convert into a plant for the manufacture of bombers on orders received from the Italian States.

Profitable Mining

Cobalt District Produced \$200,000,000 Worth of Silver in 1921

According to statistics already published and estimates being prepared for 1921 it is evident that the value of silver produced up to the end of 1921 from Cobalt and the surrounding district, will reach an aggregate of close to \$200,000,000. Total production from the silver mines will exceed \$92,000,000, and with the treasures containing sulphides, which combined with silicates actually mine show a net profit of over 50 per cent of the gross value. This is an achievement without parallel in the history of any other metal mining area.

For Hiccups and Heartburn Here is a Good Prescription

Nothing brings such satisfactory relief as slowly sipping a few drops of "Nervine." In sweetened water, "Nervine" relieves those conditions that cause the hiccups, just as it does sour indigestion, gas belching and fermentation in the stomach. For acute hiccups, one or two drops of "Nervine" will relieve. For chronic hiccups, one or two drops of "Nervine" will relieve. For chronic hiccups, one or two drops of "Nervine" will relieve.

Growing Tobacco in Manitoba

Tobacco growing in the latest phase of agriculture introduced into North America. It is now being grown in Manitoba. It is now being grown in Manitoba. It is now being grown in Manitoba.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to study, badly ventilated rooms. It is an often story that the mother does not get out in the fresh air, his stomach and bowels get out of order and he becomes fretful and grouchy. To avoid all this, the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box, in Dr. J. C. Williams' Medicine Co., Brockville, Ont.

Canada's First Hemp

The hemp crop for 1921—the first year that it has been cultivated extensively—will be large, according to a Winnipeg company, under whose direction farmers in the province seed and sow the hemp. Five hundred tons will be realized at Portage la Prairie.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger to the system.

Woollen Mill For Victoria

British Syndicate Will Specialize in Worsted Materials

A British syndicate proposes the establishment of a woolen mill in the city of Victoria. The company states that the mill will be equipped with the latest machinery and will produce woolen materials of high quality, and carry through the entire process from cleaning and preparing the raw wool to the production of the final grades of worsted suitings.

Value of B.C. Minerals

An estimate based on official returns places the value of the mineral production of British Columbia for 1921 at \$24,515,969.

Inexpensive Meats

BY LORETO C. LYNCH

An Acknowledged Expert in All Matters Relating to Household Management.

In the farmhouse, meats are considered a rare treat, but the thrifty housekeeper has devised ways of serving these delicacies. It is now possible for the city housewife to get meats, as the meat markets are sending them daily to the city meat markets.

Beef, pork or sheep melts may be used. The chef in our test kitchen, too, has discovered ways of serving them. Try some of these recipes:

Roasted Meats

Roast one pound of pork, mutton, beef with boiling water, let stand ten minutes, drain and wipe dry. Then, put into a stew pan one carrot, two onions, sliced, and a bouquet of herbs. Lay the meats on top of these with enough stock or boiling water to about cover. Simmer with the cover on for about one hour. Remove cover and put into the oven to brown. Dish up some mashed potatoes, put meats on the potatoes, strain the gravy and mix it with a sharp sauce, pour it over and serve.

Meats Ventricles

Slice and cover the meats with boiling water, drain and wipe dry. Cut the meats into small pieces and place in the frying pan with butter. Fry until browned. Sprinkle with salt and pepper. Add two onions sliced thin, a little chopped parsley and add a little water. When the meats are browned and well done and the onions tender, squeeze the juice of a lemon over them and serve in a border of steamed rice.

Liver may be substituted for meat

The housewife often passes by the stalls at the meat shop, scarcely realizing their possibilities. According to use these in any recipe they should be treated as follows:

Wash and soak them, cut in two inch pieces, add a little water for one hour. Drain, cover with boiling water and cook for twenty minutes.

They are now ready to be prepared in any manner desired.

Grilled steaks are a "special" at one of our metropolitan restaurants, and are delicious. Prepare them as directed above and then place them in a saucepan. Add two cups of water and one onion. Simmer, tender, then lift and drain. Place in a baking dish, season with salt, pepper and a little ground nut in quarters, cook in a hot oven for about ten minutes. Serve with a curry or rice.

Stout Pot Pie

Prepare two oxaltes as previously directed. Place in a deep container and add one quart of boiling water, a branch of soup herbs, one carrot cut in one and one cup in quarters, bring to a boil and cook slowly until tender. Put this in casserole and add one dozen very small par-boiled potatoes (one large one cooked in salt water with one cup of carrots). Ticken the gravy with corn starch and mix with salt and pepper. Strain over the tails and vegetables in the casserole. Then cover with pie crust and bake forty minutes in a hot oven.

Cuts and Bruises Disappear

When suffering from cuts, bruises, sprains, sore throat or chest and any other ailment, use Dr. Thomas' Electric Oil. Its healing power is demonstrated in every section of the country. A bottle of Dr. Thomas' Electric Oil should be in every medical chest, ready for the emergency that may always be anticipated.

Apples For Scotland

An initial shipment of 750 boxes of apples has been sent from Grand Forks to Vancouver, for shipment direct to Glasgow, Scotland, by way of the Panama Canal.

Minard's Liniment For Diarrhoea

Prefer Horse to Auto Truck

One of the largest department stores in Canada is reported to have recently offered for sale nineteen used auto trucks, and the same week placed an order for fifty heavy draft horses.

after eating, standing, sitting, standing and other disagreeable positions. It is a remedy to be used in all cases of indigestion, flatulence, gas, stomach and liver troubles.

NOTHING ELSE

SEIGEL'S SYRUP

Coal Mines Under Sea

Cumberland and Nova Scotia Have Workings Beneath Ocean

In England, the workings of the Cumberland coal field run two miles out under the sea. The ventilation of these mines is a nice engineering problem, but it successfully accomplished. At Workington, England, in the year 1817, before the science of ventilation was highly developed and at present, the sea burst through and the workers were drowned. Some of Nova Scotia's coal mining is also done beneath the bed of the sea.

Windsor Castle is like a small town in itself, containing hundreds of inhabitants.

MURINE Night and Morning

Eye, Nose, Throat, Ear, Skin, and all other ailments. It is a remedy to be used in all cases of eye, nose, throat, ear, skin, and all other ailments. It is a remedy to be used in all cases of eye, nose, throat, ear, skin, and all other ailments.

"Casarets" If Sick

Bilious, Headachy

From the Bowels

Get a 10-cent box now.

You men and women who can't get feeling right—have headache, coated tongue, bad taste and tooth, health, digestion, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, have a bad cold. Are you keeping your bowels clean with Casarets, or merely forcing a passage every few days with salts, cathartic pills or enemas? Casarets will help you sleep; cleanse the stomach of acid, fermenting food and gas; take the excess bile from liver and carry it out of the system and the result is a healthy, happy, and a Casarets will straighten you out by morning.

Mothers! Open

Child's Bowels With

California Fig Syrup

Your little one will love the "fruit" taste of "California Fig Syrup" even if constipated, bilious, irritable, fretful, or "colicky." A teaspoonful is all that is needed to cleanse the liver and bowels. In a few hours your child will be happy and thoroughly it works all the same bile, and undigested food out of the bowels and you have a well, happy, little child again.

Millions of mothers keep "California Fig Syrup" handy. They know a real sign of trouble is a sick, fretful, or "colicky" child. Ask your druggist for the name of "California Fig Syrup" and get the directions for babies and children of all ages printed on bottle. Mother! You must use "California" or you may get an illustration fig syrup.

It pleases—

You wouldn't put on hobble to run a foot race

Then why load up on handicaps for the day's work?

A good deal of food, unwisely chosen, does weigh the body down and clog the digestion, and dull the brain.

Why put on the hobble?

Grape-Nuts is a breakfast or lunch-time dish for those who want food efficiency, and mind and body efficiency.

Grape-Nuts satisfies and nourishes. It delights the taste. It is ready to serve whenever you are ready to eat. And it digests easily, quickly and completely—leaving no handicap of heaviness and drowsiness.

Grape-Nuts is the food for health and action.

Berta Vale Xmas Tree and Entertainment

On Tuesday night, December 27th, the people of this district enjoyed a rare treat at the above named Xmas tree and entertainment.

Despite the inclement weather the school was packed to overflowing and was beautifully decorated for the occasion.

There was an elaborate programme which included dialogues, songs and recitations rendered by the children of the school, in excellent fashion, which reflected great credit both on themselves and on their teacher, Mr. Decker.

At the conclusion of the programme, the old Santa Claus made his appearance and distributed ice cream (kindly donated by Mr. Meyers) candies, oranges, apples and a suitable present to each child.

Immediately after a substantial lunch, provided by the people of the district (thanks to the donors) was served. The floor was then cleared and dancing with Mr. Decker, M.C., commenced and continued with no interruption till the wee small hours of the morning, when the large number returned to their respective homes with pleasant recollections of the good night they had enjoyed.

During the intervals the audience were entertained by selections on the Victrola kindly loaned by Mr. P. J. Whittle of Strathmore, for the occasion.

The house for the dance was furnished by Mr. and Mrs. Galpin, assisted by Messrs J. Taylor, G. Barry and Jones, of Ardmore.

The refreshments were in the hands of Mesdames Taylor, Thompson, Whittle and Decker, and were handed in a very excellent and capable manner.

The following boys and girls took part in the entertainment: Audrey, Dancy, Nellie Galpin, Nettie Taylor, Clifford Barry, Marlan Thompson, Harold Barry, Edna Bailey, Leona Kearns, May Taylor, Eva Macintosh, Thomas Taylor, Hilda Galpin, Lewis Grant, Albert Reynolds, Barland Barry, Melvin Barry, Edith Ross, R. C. Clapp, Nellie Macintosh, John Macintosh, L. Grant, Tom Reynolds.

BLIND CREEK NEWS

On Friday evening, the 6th, a dance was held in the Blind Creek school under local auspices. Mrs. W. C. Phillips and Mr. Chelver provided the music, and all present had an enjoyable evening. The proceeds (\$17.00) went to the piano fund.

Mr. N. J. Robinson, who spent the New Year at his home in Ottawa, is expected home the end of the present week.

Mr. R. Mace, who has been under the weather for some time is some better.

Mrs. Ernest Sawyer and her new baby returned home last week.

The Church service at the School House has been changed from the evening of the morning at 11 o'clock. Everybody is invited to attend and bring the children for Sunday School.

Mrs. G. Moss and the children are visiting with Mrs. Moss's people at Armstrong, B.C. for a few months.

Lyle Rice is helping Mr. R. Mace for a time till he is able to be around again.

Mr. and Mrs. M. P. Batchelor are spending Mr. Crammy in Calgary on Friday last.

DALEMEAD DOINGS

The Social Club put on a free chicken, sausage and egg party in the Hall on Friday evening last, to which a good house responded.

Some forty people from Dalemead attended the funeral service of the late Mr. Kautz at the funeral parlors of A. M. Shaver, in Calgary, on Wednesday last. The remains were taken back to Mr. Kautz's old home in Toledo, Ohio, for interment. The family may be assumed of the sincere sympathy of the whole community in their bereavement.

NAMAKA NEWS

On Friday, the 4th inst., the Department of Public Health will feature in the I.O.O.F. Hall. There will also be a moving picture machine in attendance. Everyone is cordially invited. This is under the auspices of the C.P.W.A.

Mr. A. Nowicki and son were visitors to Brooks over the weekend.

Mr. and Mrs. Chas. Thompson, of Cluny, were visitors of Mr. and Mrs. E. C. Watts on Friday.

We regret to announce the loss of a valuable esteemed resident of our district. His departure took place on Thursday of last week. The body was shipped by express to Champion, but we are glad to state not for interment, it being a pure bred Jersey bull shipped by Mr. Bert Spurgeon.

RED CROSS NOTES

The Red Cross branch at San Geronimo has now been formed. At the first meeting they raised the sum of \$150 and undertook to prepare to look after the relief in their district. Nell McIvor was elected president and H. H. Kerr, secretary.

The Lac la Poudre local of the Red Cross has appointed a special relief committee under the chairmanship of Mrs. Watson. They will devote their time exclusively to this feature of the work.

The Provincial Headquarters has received many expressions of appreciation from all over the province for the Christmas cheer which they distributed in the different districts.

The need for old clothing is still very real and the Provincial Headquarters in Calgary is glad of the donations which come in from time to time. A very large quantity of old clothing has been cleaned, repaired and shipped off to districts where it was needed.

Montreal, Que. The grand total of Canadian trade for the month of November was \$151,511,000, of which our imports amounted to \$61,271,000 and exports \$87,650,000. More than fifty per cent. of the exports were agricultural products, chiefly grain; pulp and paper exports were \$17,500,000. During the first eight months of the current fiscal year income tax collections were \$75,000,000, against \$18,000,000 for the whole of 1920.

Quebec, Que. According to a cable received from England, General Booth is credited with the statement that the Salvation Army intends almost immediately to put into operation a scheme for the early transfer of 10,000 women of the British Isles to the Dominions, everyone of whom will go to assured employment. Canada, it is stated, is expected to accommodate the largest portion.

STRATHMORE'S DEPARTMENTAL STORE

Local Hottings

OF LOCAL INTEREST
Readers are requested to send in items for this column not later than 12 o'clock Monday noon, preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68.

The Strathmore Women's Institute will meet at the home of Mrs. Lena De Witt Wednesday, October 21, at three o'clock. Subject: Memories of childhood. Subject: Preparation of the child for school. Discussion: How school lunch. Every woman in the community is invited whether a member or not a member.

Mrs. A. Shaw and daughter, Mary, left Monday for an extended trip to Portland, Ore., and other points in that State.

Mrs. W. C. Tucker wishes to express to her many friends her hearty thanks for the great kindness extended her during her recent illness.

Strathmore Hospital staff beg to acknowledge the following donations: Nankana C.F.W.A., 6 blankets; Mrs. Inglis, chickens and fresh cream.

Mr. S. A. Faltows has received the sad intimation of the death of his father, which occurred in England recently. Mr. Faltows was home for a short visit last summer.

A new U.F.A. Local has been formed at Funder, the following being its officers: President, W. O. Browne; Vice-President, Douglas Hunt; Sec.-Treas., W. L. Leaman; Director, C. Browne, J. A. Brown, W. McMillan, C. B. Schaefer, Douglas Hunt, Victor, Chapman, J. Hendry.

Rockford Local U.F.A. have elected the following officers for 1922: President, A. W. Miller; Sec.-Treas., Stuart Budge, Directors, F. Stuart, J. W. Riley, S. Leavitt, G. Roppel and E. C. Foster.

Mr. John Mackenzie, editor of the Standard, paid a short visit to Regina last week in connection with the formation of a publishers' advertising company, of which he was appointed one of the provisional directors.

One of our clearest agents who arrived in town recently is, though a bachelor, an expert cook and housekeeper and invited several local people to his home last Sunday to sample his cooking. He would make an ideal husband around the home, and it is not surprising that some of our young ladies already have their eye on him.

We understand that Mr. C. W. Ostry is selling out his implement business in Mr. R. M. Walsh.

Mr. Donald Wode of the Brooks Union Bank Staff, spent the weekend in Strathmore.

Mr. Elton Haines is now on the staff of the Rosebank branch of the Union Bank.

Strathmore Chapter R.A.M. install their officers tomorrow evening, the proceedings concluding with a banquet and dance.

The L.O.O.P. are holding a whist drive in the Oddfellows' Hall on Friday, January 26. Everyone is cordially invited to come and have a good time.

Advertisers will please note that ad. changes received later than Monday cannot be guaranteed insertion. To enable us to publish on Wednesday we have to have ad. changes on Monday.

Rev. E. S. Hinton, of Edmonton, Field Secretary of Congregational and Social, was a visitor at the persons Thursday and Friday of last week and gave a very able address on Thursday evening in the Union Church on the subject "Some Problems Challenging the Church." The child welfare movement was outlined and strongly emphasized. Enforcement of our liquor laws in the three western provinces was carefully reviewed and he was exceedingly optimistic concerning an early and stricter enforcement of these laws.

Mr. E. Hamblin will be in Strathmore for the remainder of the present week adding the books of M.D. Bow Valley. Mr. Hamblin was formerly a visitor in the Dominion Government Income Tax Department, and any merchant or farmers wishing to avail themselves of his advice in the preparation of Income Tax returns for 1921 can get in touch with him at the McEwan Hotel or at his Municipal office.

SALE BILLS

Mr. Merchand, are you figuring on holding a sale soon? If so, you cannot do better than entrust the printing of your sale bills, cards, etc., to the Strathmore and Bow Valley Standard.

We have a fine range of type for this work, and our mechanical equipment enables us to give you first-class service at current western prices.

Speedy service given to mail or phone orders. Use the Strathmore Standard in your sale campaign. The Standard goes into 1000 rural homes throughout the district east of Calgary, and to make your sale the success you want it to be you cannot afford not to use it.
Every Description of Job Printing, Looseleaf Account Forms, Etc.

STRATHMORE & BOW VALLEY STANDARD
John Mackenzie, Proprietor.

Mr. and Mrs. W. P. Rawlins left last week on a short visit to England, stopping off en route to visit Mr. Rawlins sister Mrs. Rushworth, at Fort William.

The Ladies Aid Society of the Union Church meets on Thursday at 2 p.m. at the home of Mrs. Van Buren.
Hervey local news received too late for insertion in this issue.

Winnipeg, Man.—An average yield of 22½ bushels per acre of flaxseed was secured from a 25 acre field in the Winnipeg district, according to advice of C. E. Howe. The flax was of high quality and the entire crop was sold for seed at a substantial premium over the market price.

Winnipeg, Man.—Definite steps have been taken by the Canadian Council of Agriculture towards reestablishment of the Canadian Wheat Board in a resolution which "urges the new Federal Government to reconstitute the Canadian Wheat Board to handle the wheat crop of 1922, and until such further time as world conditions again become normal."

Winnipeg, Man.—Approximately \$250,000 worth of Western flax will be disposed of by auction at the forthcoming sale of the Winnipeg Port Auction Sales Company, according to W. C. Adair, manager. The demand for flax is good. Mr. Vercell stated, however, shank and Hudson seal being the most popular furs.

Lethbridge, Alta.—An idea of the activity of the coal mines in the Crows Nest Pass may be gained from the fact that in December alone the monthly payroll to the miners is approximately \$125,000 and will be greater as the winter progresses.

The Pas, Man.—The value of fish taken by commercial inland fishing enterprises in Manitoba, Saskatchewan and Alberta and the Yukon last year totalled \$210,827. Great activity is prevailing among fish companies in the northern lakes of Alberta this year, and the catch is expected to exceed that of any previous year.

Regina, Sask.—Further cooperation in the matter of equal educational standards between the four Western Canadian Provinces has been achieved in a standardized reader for the entire West. Past educational conferences between the provinces have been responsible for the development of a standard training in normal schools and a standard standing of admission.

Edmonton, Alta.—Commercial fishing in Alberta for coarse varieties of fish is now permitted for ten and a half months of the year under a new regulation recently issued. The closed season is from April 1st to May 15th. The regulation does not apply to waters in which there are trout, whitefish or fallow.

Calgary, Alta.—One of the interesting features of the winter in Calgary will be the reunion of Alberta old-timers in Calgary on January 18. No one is eligible unless thirty years or resident. The pioneers meet, even stories of experiences of the olden days and wind up with a real western dinner of the style of quarter of a century or more ago.

Mr. Percy Parrish also left last week on a visit to the Old Country.

Mr. A. B. Poole spent several days in Regina last week.

Strathmore collected with Gleichen in three forms of winter sport last night at Gleichen. The hockey team beat Gleichen seniors, while a boxing team also went down, and a team of curlers played on the Gleichen rinks. The curling teams were composed as follows: A. B. Poole (skip) R. Stewart, H. P. McDonald, C. W. Cooley, A. W. Anderson (skip) M. P. Barber, G. F. Butler, and C. Troutlin. The project for a local curling club did not materialize this season, but there is no doubt that by next winter a curling rink will be in full blast.

Vancouver, B.C.—Clothes of the finest quality are now being manufactured in Vancouver from cloth woven in British Columbia mills from British Columbia wool. During the past year 21,000 sheep were clipped for this industry alone. In addition to making clothes of fine material, a rougher quality of material is being utilized in making Mackinawshoes and overalls for lumbermen.

PIONEER MEAT MARKET

Our store will be closed each Wednesday afternoon from 1 p.m., until further notice, excepting on weeks on which there is a legal holiday.

Strathmore, Alberta, January 11th, 1922

Development of New Farms under Irrigation

(By Robert Stockton)

Many are the problems in connection with the development of a new farm under an irrigation project. These problems differ from those encountered by the farmer on non-irrigated land. The essential difference arises out of the necessity of having continuous slopes, smooth land and ditches for conveying water.

The grading and ditching will influence the choice of a location for the farm buildings, residences and other improvements. The necessity of preparing the land for irrigation and the requirements of additional labor to farm it properly will limit the amount of land for the most profitable farm unit; and, on new land, it will delay the time when a full return of crops might be expected.

In locating a house on an irrigated farm, one should consider, in addition to the topography, roads, etc., the special needs of the place due to the ditches and the work of irrigation. It is desirable that the farmer should be able to irrigate his garden and greenhouse conveniently and with a minimum interference as possible with the field irrigation operations. The location of the farm buildings has a considerable effect on the cost of irrigation as well as on the cost of farm work generally. Of two locations one may require many miles of additional travel in doing each year's work. But if the farm house is not on well drained land, the basement is likely to be damp.

Of the two considerations, however, it may be better to drain the land and grade it properly, or even to build a waterproof basement, than to have the house inconveniently situated for carrying on the necessary farm work efficiently. To avoid the dust from automobiles and other traffic, the house should be built well back from the road—much further back than was formerly customary—but at the same time a good outlook on the road and a view of the surrounding country should be preserved as far as possible.

But there are cases where a favorable location of a house cannot be made along the lines suggested, or the buildings may have been started by some previous owner and will be moved. It then becomes worth while to attack the problem from the other side, and to try to lay out the ditch system and grade the land as to facilitate the work in this manner.

The next step is to plan both the present and future layout of the buildings and their surrounding groves of trees, gardens and pastures. Trees should be planted for windbreaks and protection and also to improve the general appearance of the farm. They are best arranged in groves and small groups so that outlook on the road may not be hindered and the best possible view over the country is afforded. This produces a more attractive effect than having all the trees in straight lines.

It is no longer considered good form to have wagons, machinery, fire cars and rubbish crews promiscuously all over the premises. The thing nowadays is to have some grass and grouped shrubbery in front of the house, and the miscellaneous farm equipment kept in one place hidden by a evergreen or willow hedge, with the machinery shed, or at least the shed for the machinery shed, at one side.

Following out the idea of cleanliness and good order, it is possible to have a place that the women folk, children and strangers will regard as homelike and cozy. Further, if the barn is kept reasonably clean and in good order, it is possible to have it closer to the house than would otherwise be the case. This would result in a great saving of time and effort for suppose there are ten trips to be made each day by different members of the family from the house

to the barn, and we imagine the barn moved one hundred feet further away from the house than is necessary. The extra walking would amount to two hundred feet each trip, or two thousand feet each day or about a hundred and thirty-six miles covered needlessly in a year. There is, of course, a happy medium between the man who combines his house and barn under one roof, and the man whose barn is as far away from the house as the fence meets his son bringing in the milk after supper as he goes out to feed the horses in the morning.

Next to the barn he should have two good corals, and then a small permanent pasture of five to ten acres seeded to Barley's pasture mixture and so fixed that it can be irrigated without trouble. In the pasture, or next to it, should be a grove of trees that will eventually provide shelter and shade for the stock. In such a grove there might be native cottonwood and poplar trees, also some European poplars, green ash, larch-leaved willows and Manitoba maples. A small grove in the big pasture and near the chicken house would also be valuable. I can hear the horticultural farmer say: "All this is very fine, but what's something else to do, and the field crop do not put off the two plantations." The big job on a farm that is being brought under irrigation is to grade and smooth the land and put in the ditch system. The extra work of irrigation and the cost of the system and its maintenance demand maximum crop returns if they are to be profitable. Hence the land must be prepared as far as possible for the big crop yields which can always be had on irrigated land that is properly handled. If the land is newly broken then a grain crop will be planted and irrigated by flooding from field ditches fifty to seventy-five feet apart. Every year after the first some land should be graded, smoothed and seeded down to alfalfa or mixed grass. A third to a half of the farm should be in alfalfa or grass. The irrigated farm particularly responds to a diversified crop, and hence is favorable for stock production or finishing, and development should be towards this end. In working out a permanent plan, regard must be had for the slopes, the soil, the crop to be grown and the head of water available, and the land then graded for borders, field laterals or furrows as may be most suitable and economical.

An attempt has been made to emphasize some of the points to be considered in making a real home and in laying out the farm for economical working. It is not always possible to have the buildings near the headgate and the highway and on high ground with a fine view and near the center of the land to be worked, but it is worth while to come as near to these ideals as possible. It is especially necessary on the irrigated farm that one should begin planning trees and prepare the land for irrigation, and that one should have a plan to work by. This plan must include alfalfa, clover, grass crops and livestock or some kind. If we begin right, and then continue along right lines, success will be assured.

Toronto, Ont.—Toronto has now 100,000 telephones, or one to every five persons, men women and child, even in the city, a higher percentage than is claimed than any other city in the British Empire.

Montreal, Que.—During the 1921 season no less than 807 trans Atlantic steamers came in or went out of this port, their net tonnage being 2,238,495, an increase of 163 vessels over that for 1920, while the net tonnage was 577,600 tons greater. Of the foregoing vessels that visited the port 745 were British; 84 Norwegian; United States, 48; Italy, 7; and Holland, 27.

Our store will be closed each Wednesday afternoon, from 1 p.m., until further notice, excepting on weeks on which there is a legal holiday.

IRRIGANA NEWS

Mr. Elliott shipped several loads of cattle and hogs to Calgary on Wednesday.

Mr. McKinnon conducted the funeral services of Mr. Powell at Calgary on Friday afternoon. A number from the village attended the funeral. The many friends of the deceased, and their sympathy to the bereaved family.

One local telephone operator who has a long experience calls out a change time. The time will be a grade back on the 17th.

The school opened on Tuesday morning with a very poor attendance. The teachers who have taken up their duties here are Mr. E. Wright and Miss Coffey.

The report about Mr. Marshall's report is like the oldman's report. It is a brain wash, and again on some one again. "Thank you."

While Mr. and Mrs. Colclough were away from their farm on a short time on Monday afternoon, their home was entered and robbed. With the exception of some field glasses, the only articles taken were a watch, a ring, a bottle, rolled oats, meat and other things were taken. It is believed that the thief made his escape in a car as the car was standing at the house during Mr. Colclough's absence.

Mr. Joe Bathurst had a severe fever one day this week when he discovered that his saddle had been removed from the back. Fortunately he found, upon inspection, that it had been increased by one of his neighbors.

Poultry World Hall of Fame

(Explanatory Phrase Note)

A short time ago the death of White Wyandotte hen No. 1142 occurred. Since this hen has had so much to do with the present high production in our strain of White Wyandottes, one kept at this station, her name deserves a place in the hall of fame of the poultry world, and for advertisement in our story.

No. 1142 was hatched May 1st, 1917, and laid her first egg October 1st, 1917, being 192 days old. Her total record was: 1st year 237 eggs, 2nd year 133 eggs, 3rd year 167 eggs, 4th year 1 egg, making a total of 537 eggs. Of these 43 were laid in the winter of the first year, 21 during the winter of the second, 22 during the winter of the 3rd, and 1 during the fourth. At time of laying her first egg, her body weight was 54 pounds. Her eggs averaged 25 ounces in the dozen.

That her patients inherited her high producing qualities was evidenced by their production. In 1919, twelve of her patients gave an average of 253 eggs, the individual production being from 176 to 249 eggs (122 eggs laid hatched in 1920, one gave 23 eggs and one gave 212 eggs with two months to complete her lay. The second year averages for her patients were also good, but as yet are not complete.

1142 was never lonely. She showed as strictly as any business of egg production that she had no time. It would seem that this "Mystery" was also transmitted for only three of her daughters have ever met time because of broodiness.

Much has been said and written concerning the importance of the male in the flock. From the standpoint of high production, the male does occupy a somewhat place, but we are more and more convinced with the years that we are to obtain high production, and to build up the flock, that the male is the blood of the dam as well as in that of the sire.

Experimental Station, Sidney, B.C.
